Scope Note and Content:

This collection focuses on the Paterson Fire Department, partly consisting of five journals related to Engine Company 6. These journals record the calls answered and information about fires fought in the period 1891-1915.

The second and larger part of this collection consists of the programs from the Annual Firemen's ball, held by the Firemen's Mutual Benevolent Association. Many of these programs include photographs and short biographical notes on some of the local firemen and chiefs, as well as containing aids from local businesses. The programs range in date from 1943-1983.
